

Video Transcript – Aaron McWilliams Talks about Corporate Culture

My name is Aaron McWilliams and my job title is a senior account. I have been a CK team member for about 10 years now. What enticed me about Cray Kaiser is, I really liked the team atmosphere that CK had. I also liked the fact that I would be given the opportunity to work in many different areas of accounting, rather than just one specific area. I've stayed at Cray Kaiser, because I really feel like the culture here is very good corporate culture. Everybody is really striving towards the same goal and everyone takes pride in the work that we put out there every day.
