

Video Transcript – Rolake Adedara Talks About the Mentoring Program

My name is Rolake Adedara. I'm an assurance manager here at CK. I've been with Cray Kaiser since generally of 2021, so about six months now. If I may just speak to the mentoring process here, really, really huge thing here at Cray Kaiser. Somebody said that you are not a success until you have a success. I think that the mentoring program here at Cray Kaiser really points to the fact that the leadership is interested in our career. They are interested in our growth, they are interested in our learning and also becoming whatever our goals are here at CK and in our career.
